

Bagong Silang Church  
Victory report

Praise the Lord!

God is good all the time, for taking care of our internship students for the whole 3 months of their internship. Also God blesses them of adults and children to witness to them the word of God.

Last month we had many first time visitors and regular visitors keep coming to attend Sunday church service even during Thursday night bible study. These were the fruits of our interns' hard labor. They ignore the heat of the sun just to reach the lost souls.

One of our regular visitors was baptized, her name is Sis. Magdalena Ritua, a senior citizen. In spite of persecution of her son, she sneaks just to attend church Sunday service. Her son did not allow her to attend church service by saying there is a church near them why she needs to attend church in a far off. She explains to her son that she feels good to attend in our church than to the other church near them.
