

## **BAGONG SILANG CHURCH VICTORY REPORT ( JUNE 2016 )**

God is good all the time!

Last month of June, one of our regular visitor, the fruit of the recent ACTS Internship Evangelism program, a bible study of Bro. Agustin Canja III and Bro. James Clores named Marina Reyes, testified about the goodness of God in their family. She started attending church service in the month of March.

Ma'am Marina Reyes lives in Soldier's hill somewhere in Malaria. Her son met motorcycle accident months ago and was a victim of hit and run. Her son's foot was hardly damaged and underwent some bone operation at the Orthopedic (the only hospital in the Philippines for bones problem). Her son underwent an expensive surgery that put steel brace for support in order for him to move and walk soon.

During those days that Ma'am Marina's son were on recovery, bible study continued in their home but her son didn't mind in listening the bible study. And on the most recent surgery of his son, this is the time when Ma'am Marina saw how God works in their life. Ma'am Marina testified that his son is losing hope for they don't know where to get money and how they can go to the hospital but his son really needs to have the surgery. But God provides, one brethren help to contact the city ambulance to fetch and bring them to the hospital. At the hospital, her son worried for the hospital bills. Ma'am Marina with the strong faith prayed and asked her son to help her pray to God. Truly, God answered them, for the doctor had been touched by God to have a promissory note on their bill. Ma'am Marina added, that she and her children saw how God touched other people to provide their food and space to sleep while in the hospital. After the surgery, Ma'am Marina got a problem for the ambulance cannot fetch and bring them home so they need to ride taxi but they do not have money for fare and her son cannot walk. With that, they saw also how God works though no taxi would like to give them a ride at first for their money is not enough.

The Saturday night after that, Ma'am Marina got a dream and she don't know what it means but she found herself early Sunday morning preparing to go to church and testified on that Sunday service in which she said afterwards that she don't know what makes her stand and testify for she is as shy type person. Truly that God is good and He is worthy of our praise. From that time, Ma'am Marina regularly attending Sunday service and her son was now longing the presence of those who handled bible study as he is now listening. Thank God for this, to God be the glory.
