

Bagong Silang Victory Report Month of January

Praise the Lord!

Bagong Silang church has successfully finish the communion and footwashing January 08, 2017 and as what had been planned after the once a year event, there was an older people fellowship where in games, raffles and singing happened. We can say that it was a wonderful experience to everybody because though it was an older people fellowship was actually like a church fellowship everyone were welcome to watch as the older people have fun enjoying even the punishment to sing whenever they loss the game. There was that aura of happiness and blessings as we all went home. Thank God.

At the midnight of December 31, 2016 and until January, the son of Sis. Estherlyn Regatillo (the daughter of Pastor Bugay and the son is Pastor Bugay grandson) was confined in the hospital due to diarrhea and vomiting cause by amoeba but thank God for He is still the same yesterday today and forever that still can healed sickness and provides needs. He is our great healer and great doctor. The boy is doing good now. Hospital bill was settled. He is also our great provider.
