

**Bagong Silang Victory Report
For the month of December 2016**

Greetings in the name of our Lord Jesus Christ!

Last December 2016, the Bagong Silang church had held a children's fellowship. We've been blessed to see how happy these precious children was. They sing praises songs, play games and enjoy even the small presents. We hope and pray that God would make marks upon these children's heart and mind.

A few weeks later after the children's fellowship the young people had also an outdoor fellowship in Wildlife park and in Quezon Memorial circle. We can still remember that before we go, some young people were worried about the amount of money they have, it seems it was not enough for the trip. But to our surprise pastor Cajanding have given each one of us money exact to pay for our entrance fees and for us to enjoy some rides. Although there's a minor accident happened to one of our young men, name Bro. Joshua Noguerras, but we felt the care of God because the wound were not deep and it did not take long to be healed. Our pastor sent him to the hospital for immediate medical attention he needed. He went home worriess because of this medical care he received. As we go back home though tired after the trip, yet thankful for the good time and blessing that God has granted to us.

Thank God for every fellowship.
