

## God is the Great Healer

Praise the Lord!

Praise is unto God for giving us healing in time of sickness. There's no impossible to God if we have faith in our heart. God sees our falling tears as we pray unto him. And we are thankful for one brother here in Lucena proves once again that God is truly there to answer our prayer.

Bro. Marlito Escobar, 46 years old. Lucena Church member since 1990. He received a great healing from God. We thank Jesus for this beautiful victory He gave. Last December 6, 2016 (Tuesday) of early morning, Bro. Escobar wake up with a cross- eyed and it lasts for 14 hours. He didn't know that he already has a stroke. He felt very different and as the sun goes down he feel that he could not carry himself anymore. He prays a deep prayer unto God to keep him alive and not to get his life that early. At 7 pm, his sister Maricel attend to his blood pressure and it was remarkably high. On that day he went to hospital to have a check up and the hospital want me to admit him badly because he's already in a stroke state but he trust God. He has a TIA (Transient ischemic attack) or called mini stroke, a clot that temporarily blocks blood flow to our brain. His speech becomes slurred. As a sales agent, talking is really important in his line of work but he has faith that God can heal him. And Bro. Marlito Escobar goes to church to pray over to Pastor J. Pabanil. And it lasts for 20 days and we thank the Lord for God is so good to him. He is under recovery but he can speak clearly now. The God we serve is merciful and His answer is granted to those who pray and trust Him fully.
