

Praise the Lord!!

We thank God for his guidance and mercy to us!

We also want to Thank God for he is the one that waters the souls of every seed that is planted on each souls that we sow. We remember that our two sisters here in Lucena church Sis. Badeth Porley and Sis. Divina Marcelino prayer is that their Father and Mother (although they are both living separately) will be save and receive the Gospel. Their mother, Sis. Cita, was working in nearby province and she first attended our church last 2014 in our old church, and her daughter ask her to live here in Lucena so she can attend the church and be with them and receive the salvation, but she refused and told her daughters that she is happy and contented in her work and she didn't want to change her religion, but her daughters continue in prayers and believe that God we serve is true and living God and can touch the heart of their mother.

And years passed, she went home here in Lucena and visited her daughters, and it was October 25, 2017 during our church dedication, when she first step inside the church, she was really amazed and told her daughters "How did this happen? Is this really your church now? Because the last time I attended your church in a old wooden house and I can't even call it chapel" her daughters answered "yes, mother this is our church now" truly the God we serve is a living God and answers our prayer, from that moment, she starts thinking to herself and stays a month attending our church services, and before 2016 ends she told her daughters I will quit my job in nearby province and will live here in nearby town in Tayabas so I can attend church always, so Pastor Pabanil told her If she willing to have home Bible Study she say" yes Pastor, there In Tayabas in the middle of the field where her siblings stays I want to have Home Bible study there, so every Thursday Pastor Pabanil and his wife, eldest son and her two daughters walk down in the field, 1 ½ hour walking from the road, Even though we walk almost 3 kilometers of forest, brook and rice fields, we walk through the rocks, mud and river before we reach their small house in the middle of the field, although its too tiring and too challenging walking in the wet field, careful to balance yourself properly because the left side is watery rice field and the right side is steep hill, and most of the times our shoes stuck up 24 inches below the muddy field, sometimes we've encountered a rainy and windy day but it is not an hindrance for us to go there. Until now the three families continually welcome us to study the bible that they are willing to listen to the word of God.

Now, Sis. Cita is happily attending our church services and she starts wearing holiness although no one ask her to wear that because she is still a visitor, but in her heart she has a conviction about holiness and we are continue praying for her, and she will be coming with us in this conference 2017.

To God be the Glory!
