

# **LUCENA CHURCH VICTORY REPORT**

## **( JUNE 2016 )**

### **GOD IS OUR HEALER**

Praise the Lord!

We are thankful that the God we serve is alive who is always there to protect us. It is a great victory that Sis. Grace Mendones, 41 years old testify last Sunday (July 3, 2016) that God gave her a miracle. She lived here in Lucena with her two daughters who are still studying. She went in her husband's place in General Luna last June 30, 2016 to prepare for her husband upcoming 44<sup>th</sup> birthday.

On that day, she helps her husband and relatives to prepare. When Sis. Grace put the fresh killed chicken in boiling water, it suddenly moves, so she drop her right hand straight in that boiling water without her knowledge. Her husband, children and relatives witness what happened including their two neighbors. They all got shocked and others shouted but she rebuked it in the name of Jesus Christ. They thought that the right hand of Sis. Grace was seriously injured and needed to rush in the hospital to get a first aid medication because the water is boiling for almost an hour. But Sis. Grace is very thankful to God because He gave her a miracle and her right hand was not seriously injured despite what had happen.

Those who witness got shocked and they can't believe that, Sis. Grace right hand got only a swell. And they asked how that was happen? And she answered them that the God we serve is a living God who watches and take care of us every second. She further says to them that God did not allow her right hand to have a great damage because God knows that she used it to work to earn a living in her family here in Lucena. She still believes that Jesus will touch the heart of her husband to serve Him, one day. We are grateful for this great victory that God has given to us. Once again, God proves that He is able to protect us all the time. We give all the glory to God for His goodness to each and every one of us.
