

VICTORY REPORT OF PASAY CHURCH

(MONTH OF JANUARY 2017)

Greeting to everyone in the name of Jesus Christ.

We give the highest praise and glory to our Lord Jesus Christ for giving us the guidance and blessings as we visited our regular outstation service in Tiaong Baliuag Bulacan last month of January 22, 2017. We thank God because we arrived safe and fast on our way there. We thank God for the good fruits we have in each regular visitors in Tiaong Bulacan. They testified the goodness of God during our regular service it had been like a pop corn testimony where everyone was so excited to tell the goodness of God in their lives. One of them ***Mrs. Dora testifies that God healed her stage 4 cancer in the name of Jesus and until now the Lord is good, protecting her and providing her needs. And she 's praying one day she and her family will serve the Lord.*** Also ***Sis. Sarah Misleng testifies that God remind her because one night she wants to practice motorcycle with her step-dad and suddenly when she starts to drive, it goes fast like she can 't even control it until it hit the side of the road and they thrown on the other side of the road. But she 's thankful to God because she 's alive and she just got bruise on her knees and elbow and her step-dad don 't have even wounds.*** Pastor Bunog preached about the “ The Fruit of the Spirit “ quoted in Galatians 5:22-23. We thank God because His message had been delivered to us. We pray during the altar calling and God moved once again in us. After our service we went straight to Malolos Bulacan Hospital to pray for Mrs. Virginia De Jesus; 62 yrs. old one of our regular visitor who is confined due to her diabetes. She is a cousin of Sis. Herminia Sulit and they asked for the prayers from us. When we reached the hospital that day, we had a bible study before we prayed for her. Pastor Bunog taught about “the Great Commission” Matt. 28:19; Mark 16:15-16; Acts 2:38. Pastor Bunog laid hand over Mrs. Virginia De Jesus and we prayed together she barely see us because her eyes had a complication due to her diabetes but she recognized us. Praise the Lord!
